

ECO-DRIVE SAE 5W-30 C4

ECO-DRIVE SAE 5W-30 C4 is a HC-synthetic high-performance low-friction engine oil with low sulphur, ash and phosphorus content (low-SAP). Base oils produced with the latest HC-synthesis technology and carefully chosen high-performance additives help reduce the sulphated ash content and guarantee reliable wear protection and keep the engine clean. Excellent cold start behaviour ensures optimum lubrication during the cold start phase. The product provides reliable protection under extreme conditions and high temperatures.

ECO-DRIVE SAE 5W-30 C4 is recommended for use under all operating conditions and helps protect the environment as it reduces harmful emissions.

ECO-DRIVE SAE 5W-30 C4 has been specially developed for use in Renault diesel engines with particle filter (DPF). Do not use in 2.2dCi / G9T engines!

ECO-DRIVE SAE 5W-30 C4 prolongs the service life of the exhaust gas aftertreatment system and enhances its performance.
