

## ECO-DRIVE LONGLIFE plus SAE 0W-30

ECO-DRIVE LONGLIFE plus SAE 0W-30 is a high-performance low-friction oil for petrol and diesel engines in passenger cars. It is a low-SAP product with reduced low sulphur, ash and phosphorus content. Base oils produced with the latest synthesis technology and carefully chosen innovative high-performance additives help reduce the sulphated ash content and guarantee reliable wear protection and keep the engine clean. The oil also significantly lowers fuel consumption. Excellent cold start behaviour ensures optimum lubrication during the cold start phase. The product provides reliable protection under extreme conditions and high temperatures. ECO-DRIVE LONGLIFE plus SAE 0W-30 is recommended for use under all operating conditions and helps protect the environment as it reduces harmful emissions. ECO-DRIVE LONGLIFE plus SAE 0W-30 has been developed for modern cars, especially with particle filters (DPFs and CAT). It can also be used in gas-fuelled passenger cars (CNG/LPG). ECO-DRIVE LONGLIFE plus SAE 0W-30 prolongs the service life of the exhaust gas aftertreatment system and enhances its performance. Observe manufacturer instructions!
